

Developing the Meaningful Engagement Program Theory to facilitate inclusive occupational therapy for diverse groups with dementia

Presented by: Sally Day

Co-authors: Kate Laver, Yun-Hee Jeon, Kylie Radford, Lee-Fay Low

Supported by:

Dementia Centre Research Collaboration PhD scholarship

AAG RM Gibson program grant recipient (2021)

THE UNIVERSITY OF
SYDNEY

Celebrating 175 years

We implemented the same program in two locations. For some reason, we had very different results.

How?

Image from ramsesproject.org

Why?

Meaningful Engagement in dementia interventions

Positive outcomes for diverse group:

- ↑ quality of life
- ↑ everyday activities
- ↓ carer burden

How do we achieve meaningful engagement?
